PROJECT EXPERIENCE

Union Exam (Darrebni final Project)

- The Darrebni project for the National is directed to all Syrian students to study the unified national exam and apply for it without worry or loss among the sources. Students from the faculties of: Informatics Engineering - Architectural Engineering - Human Medicine - Dentistry - Pharmacy can all benefit from the Darrebni project for the National to facilitate studying for the exam and testing themselves immediately upon completion. And also check the documented references. All of this will be done according to a user experience that has been worked on to provide the best study available to you. [Link](#)

Souk Plus (E-commerce website)

- Design and develop an integrated e-commerce website that allows entrepreneurs to create business accounts, display and sell their products in an efficient and easy way to manage and modify their products and receive reviews from users while providing a fun and easy-to-use shopping environment for ordinary users in addition, the site will be designed responsively to mobile phone screens.

It contains two types of accounts:

- 1- Regular user account: Users can browse products, add them to the shopping cart, easily complete the purchase process, and many other features.
- 2- Merchant Account: It allows entrepreneurs to create special pages for their stores, manage products, modify prices, and set descriptions, with the ability to obtain ratings from users. [Link](#)

HTML&CSS Templates

- This website has been developed using the following technologies: HTML5, CSS3, Bootstrap, and Tailwind Designed to be compatible with all screen sizes. [Template3](#)
